

In total we've had 14 students and the grand majority brough greater performances than in the past years. Continually, Stagii pe Bune remains especially important to us. If before we had trouble finding candidates that meet our standards, now we simply don't have the capacity to keep all the people we wish to collaborate with. This year's generation has left quite the impression on us, especially for the attitude it brought. We're hoping to offer a few scholarships for the diploma project and keep in touch with them in the future.

hanks a lot for your support. It was another great year at tagii pe Bune.

Cosmin Stan

Director of Product Management at Operi Corporation

ABOUT THE PROGRAMME

Stagii pe Bune promotes internships to students all during the second semester. It ensures not only a great number of applications, but also a powerful brand presence among students.

INCLUDE

- Event stall
- 5 min pitch on a dedicated presentation track

INCLUDE

- Event stall
- 1 internship ad included
- Elevator pitch

Over the 13 years of Stagii pe Bune we've seen students become reliable teammates, and colleague become managers.

If you look around the office you'll probably see seniors that were once starting out as interns on Stagii pe Bune.

We hope to bring our internship programme to every single university city in Romania, so every student has the chance to reach his max.
